

MONTHLY GAS INDEX ENERGY PLAN

What it is

Monthly Gas Index is an energy plan that allows you to secure a long-term power supply without a long-term price commitment. You simply contract for power indexed to the price of natural gas and then convert it to a fixed price, when the time is right for you.

How it works

Our Monthly Gas Index energy plan offers your business the flexibility to contract for your power at a price that adjusts monthly, based on the monthly NYMEX settlement price. Or, with just one call to our energy experts, you can transact natural gas in real time. You have the ability to lock gas:

- For all or a portion of your monthly load, depending upon your size and response changes in the natural gas market.
- For any full-month periods, you choose, based on your budget concerns or prevailing market trends.

BENEFITS AT A GLANCE

Flexible Terms

Contract at a rate that adjusts monthly within the market.

Easy Transactions

All it takes is one call to lock in your price.

Market Savvy

Lets you take advantage of favorable market conditions.

Lock-In Your Heat Rate

A set price for the duration of your contract.

.....

Float Your Natural Gas Rate

Take advantage of market volatility if it occurs.

.....

Manage It Simply

Make changes and adjustments with a phone call.

Customize your energy plan today.

The freedom to leverage your expertise while taking advantage of movement in natural gas prices

Natural gas prices can fluctuate. Our Monthly Gas Index plan allows you to take advantage of that volatility when it occurs. There are three main components to a plan you create.

A "locked-in" heat rate, which remains in effect for the entirety of your plan. A natural gas rate that you can "float" and set in place at a future date for a length of time you decide—one month, several months, or even as long as a year. This is the flexible part of your plan that can adjust as natural gas prices go up and down. The final element is an energy price "adder," basically the retail component of the plan and the one that completes the pricing equation.

MONTHLY GAS-INDEX

Your monthly power rate is set each month using NYMEX settlement price for the month unless you have fixed the price for that month.

ONLINE ACCOUNT MANAGEMENT

This tool comes with every energy plan we offer. It provides you with an intuitive online portal to easily manage your electricity.

Convenient

- Pay bills on the spot
- Download invoices
- Manage access by account user
- Add and delete site locations

Personalized

- Create custom group sites
- Configure your dashboard
- Create customized reports

Insightful

- View market trends, billing information and energy usage
- Analyze data and export reports
- Create comparison reports
