This price disclosure is based on the following prices:

Base Charge: \$0.00 per billing cycle  
AEP-Texas North Delivery Charges: \$3.57 per billing cycle and 3.5325¢ per kWh  
Indexed Energy Charge: All kWh updated monthly

**Electricity price** Indexed Energy Charge =  $0.02164 \times \text{NYMEX Gas Price}^*$

\* NYMEX = closing price of the monthly NYMEX natural gas futures contract, in \$/MMBtu.

*Your monthly bill will be calculated by summing the Base Charge, the Delivery Charges and your usage multiplied by the Energy Charge.*

*Each month, the closing price of next month's NYMEX Natural Gas Futures Contract will be determined on the last day of trading for the contract. This closing price will be applied in the formulas above to determine the Indexed Energy Charge you will pay for the bill you receive based on meter readings after the 15th of the next month. For example, the Indexed Energy Charge charged for meter readings from June 15 to July 14 will be determined by multiplying the last settled price of the June NYMEX Natural Gas Futures Contract, established in the last week of May, by 0.02164.*
